---

## Career Objective

- Seeking an entry level position in an organization which helps in polishing my skills and building my career for the contribution of short-term and long-term goals of the organization

---

## Skills

- Good communication skills  
Interpersonal skills

---

## Education

- Malineni Lakshmaiah Women's Engineering College  
Btech (ECE) Passed out-2024
- Sri Chaitanya Junior College  
Intermediate(MPC) Passed out-2020

---

## Internships

- Certified in Internship on AWS(Amazon Web Services) Conducted by NSIC(National Small Industries Corporation LTD.).
- Certified in International internship on Robotics Conducted by APSSDC(Andhra Pradesh State Skill Development Corporation)
- Certified in Embedded System Developer Virtual Internship which was conducted by Edu Skills.
- Certified in Salesforce Developer Virtual Internship conducted by Smart Internz.

---

## Projects

- Title : Wound Moisture Detecting sensor
- Technology : IoT&AIML
- Description: This Project is made with the help of Arduino Software.This project was designed for detecting the moisture on the wound when it is completely dressed up by using Moisture sensor.
- Title: EMG-Controlled Servo Motor System: Integrating Signal Processing with real time feedback
- Technology : IOT
- Description : This Project introduces a system for real-time servo motor control using Electromyography (EMG) signals. The existing system involves EMG signal capture with the Bioamp EXG Pill but lacks direct utilization for physical output control. In the proposed system, a servo motor is integrated and controlled by an Arduino micro controller based on processed EMG data.
